
Command Reference: WriteDiversioRightsToList()

Write diversion rights data to a delimited file

StateCU and StateMod Command

Version 3.09.00, 2010-01-26

The WriteDiversioRightsToList () command writes diversion rights data to a delimited file.

The following dialog is used to edit the command and illustrates the syntax of the command.

Edit WriteDiversioRightsToList() Command

This command writes diversion rights data to a delimited list file.
It is recommended that the file be specified using a path relative to the working directory.
The working directory is:
C:\Develop\StateDMI_SourceBuild\StateDMI\test\regression\UserManualRef\FillDiversioRight

Output file:

Write how: Optional - indicate whether to overwrite/update (default=OverwriteFile).

Field delimiter: Optional - delimiter between columns (default=comma).

Command:

WriteDiversioRightsToList

WriteDiversioRightsToList() Command Editor

The command syntax is as follows:

```
WriteDiversionRightsToList (param=value,...)
```

Command Parameters

Parameter	Description	Default
OutputFile	The name of the output file to write, surrounded by double quotes.	None – must be specified.
WriteHow	OverwriteFile if the file should be overwritten or UpdateFile if the file should be updated, resulting in the previous header being carried forward.	OverwriteFile
Delimiter	The delimiter character to use between columns.	Comma

The following example illustrates how to create a list of diversion rights from a list of stations:

```
ReadDiversionStationsFromList (ListFile="test.csv")  
ReadDiversionRightsFromHydroBase (ID="*")  
WriteDiversionRightsToList (OutputFile="rights.csv")
```
