Command Reference: SortWellRights()
Sort well rights

StateMod Command
Version 3.09.00, 2010-01-24

The `SortWellRights()` command sorts the well rights. This is useful to enforce consistency between files and simplify file comparison.

The following dialog is used to edit the command and illustrates the syntax of the command.

SortWellRights

SortWellRights() Command Editor

The command syntax is as follows:

        SortWellRights(Parameter=Value,…)
